Conditions, which have to be met by the participants (when applicable):

incl:

General conditions:

1. In the public procurement may participate all interested Bulgarian or foreign natural and/or legal persons or their alliances (consortiums), as well as any other formation, which meets the requirements, specified in the Public procurement act of the Republic of Bulgaria and the conditions in the present announcement (notice) and the documentation for participation, announced in advance by the Contracting authority
2. A person, which participates in consortium or has given consent and appears as a subcontractor in the offer of another participant, may not submit an individual offer.
3. One natural or legal person may participate only in one consortium.
4. Related parties by virtue of §2, p. 45 of the additional provisions of PPA may not submit individual offers. *If during the time of conduction of the procurement arises such circumstance, the Participant shall be obliged to notify in written the Contracting authority in 3-day term following its occurrence.*
5. Branch of a foreign entity may be an individual participant, if it can independently submit an offer and execute contracts according to the legislation of the state, in which it is established. If for proving compliance with the requirements for economic and financial standing, the technical and professional capacities, the branch refers to the resources of the trader, the branch has to furnish proofs, that in the course of implementation of the procurement it shall have on its availability these resources.
6. Participants - Consortiums:
 - a) The Contracting authority shall not set out a requirement for establishment of a legal person, when the Participant, selected for contractor, appears consortium of natural and/or legal persons.
 - b) If the consortium is registered under BULSTAT before the date of submission of the offer for the present public procurement, it has to be indicated BULSTAT and/or other identifying information according to the legislation of the state, in which the Participant is established, as well as address, including electronic address, for correspondence. In case it has not been established (registered) upon award of the implementation of the activities, subject of the present public procurement, the Participant must submit a certified copy of certificate for tax registration and registration under BULSTAT or equivalent documents according to the legislation of the state, in which the consortium is established, after it is notified about the made classification and prior to execution of the Contract on award of the present public procurement.
 - c) In case of participation of consortiums, which are not legal entities, the compliance with the conditions, which have to be met by the participants, (including the requirements about

financial and economic conditions, technical capacities and qualification, when applicable) has to be proven by the consortium as a whole (the consortium participant), not by each of the persons included in it, except for the respective registration, submission of certificate or other condition, necessary for implementation of the procurement, according to the requirements of a normative or administrative act and according to the distribution of the activities, envisaged in the document for establishment of consortium.

- d) In case the Participant is consortium of natural and/or legal persons, the grounds for exclusion under art. 54, ал. 1 of PPA shall apply for each member of the consortium.
- e) When the Participant in the public procurement is consortium, which is not a legal person, the Participant must enclose to its offer a copy of a document, from which to be seen the legal grounds for establishment of the consortium, as well as the following information:
- The rights and obligations of the participants in the consortium;
 - The distribution of the responsibility amongst the members of the consortium;
 - The type of activities, which shall implement each of the members of the consortium;
- The document must be signed by the persons in the consortium, as it has to definitely indicate the representative of the consortium. When in the contract is not indicated the person, who represent the participants in the consortium, there has to be submitted a document, signed by the persons in the consortium, in which is indicated the representative. In the document for establishment of consortium must be certified in an unconditional way that the participants in the consortium shall undertake joint responsibility for the participation in the public procurement and for the period of implementation of the procurement all members of the alliance/consortium shall be obliged to stay in it. The participants in the alliance/consortium must appoint one person, who shall represent them for the purposes of the procurement.

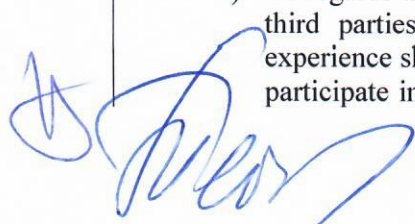

7. Use of subcontractors:

- a) If the Participant intends to use subcontractors, it has to specify in the offer the subcontractors and the share of the procurement, which it shall award to them. In such case they have to furnish proof about the obligations, undertaken by the subcontractors.
- b) The subcontractors should meet the respective selection criteria, depending on the type and share of the procurement which shall implement and about them should not exist grounds for exclusion from the procurement, specified in requirements for the personal situation in the present announcement.
- c) Regardless of the opportunity for use of subcontractors, the responsibility for implementation of the contract for a public procurement shall lie with the contractor.
- d) After execution of the contract and before start of its implementation to the latest, the contractor shall notify the Contracting authority about the name, contact data and representatives of the subcontractors, indicated in the offer. The contractor must notify the Contracting authority for any changes in the provided information in the course of implementation of the procurement.
- e) When there is need, by exception shall be admitted replacement or inclusion of a subcontractor during implementation of a contract for a public procurement if the following conditions are cumulatively met:
- About the new subcontractor do not exist the grounds for exclusion, specified in requirements for the personal situation in the present announcement;
 - The new subcontractor meets the selection criteria, which have been met by the former subcontractor, including as regards the type and share of the activities, which shall implement, corrected depending on the activities, implemented so far.

Note: upon replacement or inclusion of a subcontractor, the contractor shall submit to the Contracting authority all documents that prove the compliance with these conditions.

8. Use of third parties capacity

- a) The participants may refer for the present public procurement to capacity of third parties, regardless of the legal relation between them, as regards the criteria connected with the economic and financial standing, technical capacities and professional competence.
- b) As regards the criteria related to professional competence, the participants may refer to the third parties capacity only if the persons, by whose education and qualification or experience shall be proven correspondence to the requirements of the Contracting authority, participate in the implementation of the part of the procurement, for which this capacity is

needed.

- c) When the Participant shall refer to third parties capacity, it should be able to prove that it shall have their resources available by submitting a document about the obligations, committed by the third parties.
- d) The third parties should meet the respective selection criteria, for proving of which the Participant refers to their capacity and for these third parties should not exist grounds for exclusion from the public procurement specified in requirements for the personal situation in the present announcement.

When a participant in the procurement is consortium of natural and/or legal persons, it may prove the correspondence with the selection criteria by the capacity of third parties, in observing the conditions under b. "b" and b. "d".
